Subject: Mercedes-Benz USA Approval

Pro Spot Mercedes-Benz USA Approval

There has been some confusion in regards to Pro Spot's approval for the Mercedes-Benz USA market. We received our global Mercedes-Benz approval (Bulletin #508) in October 2008 while in Germany; However, Mercedes-Benz USA is using a different equipment program (SPX) and is considered its own entity.

We have now officially met the requirements of Mercedes-Benz USA in the areas of training & equipment testing and therefore officially announce our Mercedes-Benz USA approval.

See the MBUSA Approval attachment Below
