## SEMA & NACE - Vegas 2009!

It's that time of year again... Tradeshow time! The first week of November is going to be chaotic for members of the collision repair/ car industry. Back in Vegas, SEMA and NACE will be in full force again side-by-side.

SEMA, the premier automotive specialty products trade event in the world is held November 3-6, and will be located at the Las Vegas Convention Center. Our Booth #12225, will be located in the Paint, Body and Equipment section.

NACE (Int'l Autobody Congress & Exposition) will be November 4-7, at the Mandalay Bay Convention Center. This show is the ultimate source for the most current products and service offerings available in today's market. See Pro Spot's booth # N2666 in the Main Hall.

If you're interested in working either booth, please contact Debbie DePew ([debbie@prospot.com](mailto:debbie@prospot.com)).

Start booking your reservations- you can find useful links through the SEMA and NACE websites, but also by visiting [www.vegas.com](http://www.vegas.com).
