Subject: Demo Videos

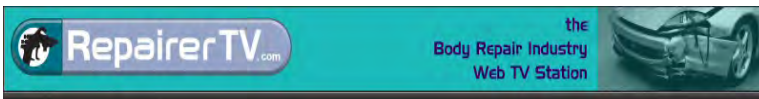

# Introducing... the Pro Spot YouTube Channel!

Hello Distributors.

We are always working to get the Pro Spot name out in the public eye... and we've done it again. Pro Spot has created its own YouTube channel for you to watch video's directly from your computer. We're currently featuring demonstrations on products and Pro Spot interviews. Follow the link to find our newest videos: Dream Car Garage TV and a Repairer TV interview from the 2009 Autopromotec show in Bologna, Italy. For these videos and more, visit our YouTube channel at: [www.youtube.com/prospotinternational](http://www.youtube.com/prospotinternational).

Don't forget Pro Spot is also advertising full page ads in ABRN and Body Shop Business Magazines.
